This half term in year 4, we will be reading 'The Lion, The Witch and The Wardrobe' by $C.\ S.\ Lewis$

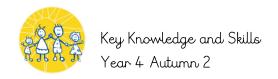

London, Rome, capital city

	Cisiliants noor
Key knowledge and skills	Key vocabulary
Science We will be learning about electricity this half term Many household devices and appliances run on electricity. Some plug in to the mains and others run on batteries. An electrical circuit consists of a cell or battery connected to a component using wires. If there is a break in the circuit, a loose connection or a short circuit, the component will not work. A switch can be added to the circuit to turn the component on and off.	Key vocabulary Electricity, electrical appliance/device, mains, plug, electrical circuit, complete circuit, component, cell, battery, positive, negative, connect/connections, loose connection, short circuit, crocodile clip, bulb, switch, buzzer, motor, conductor, insulator, metal, non-metal, symbol
 Metals are good conductors so they can be used as wires in a circuit. Non-metallic solids are insulators except for graphite (pencil lead). Water, if not completely pure, also conducts electricity. 	
Computing	Logo
 We will be learning about how to use code to control Logo is a text-based coding language used to control an on-screen turtle to create mathematical patterns. There is a structure when using the coding language of Logo: Simple instructions are inputted in Logo: Debugging is the process of identifying and removing errors from computer hardware or software. LOGO Commands (e.g FD, BK, RT, LT) A list of commands inputted into 2Logo to move the turtle around the screen. 	Grid Debugging Command Grid Pen up/down
